

Arizona State Land Department

MINERAL EXPLORATION PERMITS

1. A non-refundable filing fee of **\$500.00** is required for each application.
2. Applications must be typed or printed in ink. Applications that are incomplete or illegible will be returned.
3. The minimum acreage per application is a rectangular subdivision of 20 acres, more or less, or lots, in any one section of the public land survey.
4. A maximum 640 acres or one whole section is allowed per application.
5. An Exploration Permit is valid for **one** year, renewable up to **five** years. There is a **\$500.00** fee associated with each annual renewal. The renewal form may be downloaded at:
<http://www.land.state.az.us/programs/operations/applications/minerals/MINEXPRENEWAPP.pdf>
6. The application must be signed by the applicant(s) or an authorized agent. If an agent is filing for the applicant, a notarized Power of Attorney must be filed with the ASLD. The filing fee for a Power of Attorney is **\$50.00**.
7. Lease boundaries, access routes, mine workings, roads, water sources, residences, utilities, etc. must be plotted separately on a USGS Topographic Map included with the application.
8. An environmental disclosure questionnaire, which is attached to the application when downloaded, must accompany each application.
9. The processing of an Exploration Permit may take up to **forty-five** days.
10. Application is reviewed by the ASLD Minerals Section and if appropriate, by other ASLD divisions, governmental agencies and/or individuals from the private sector.
11. An initial rental fee of **\$2.00** per acre is due within thirty days upon notification of the intent to issue the Permit. The \$2.00 rental fee is for the first and second year of the Permit. However, although the rent is prepaid for second year, the Permit must still be renewed for that year. The rental fee for years three thru five are **\$1.00** per acre per year and due annually when the Permit is renewed.
12. A bond (typically in the amount of \$3,000 for a single Permit or a blanket bond of \$15,000 for five or more Permits held by an individual or company) is also due within thirty days upon notification of the intent to issue the Permit. Bond amounts may be increased during the life of the Permit as determined by the ASLD upon review of the proposed exploration activities as detailed in the Exploration Plan of Operation.
13. An Exploration Plan of Operation must be submitted and approved by the ASLD prior to startup of any exploration activities. The form may be downloaded at:
<http://www.land.state.az.us/programs/operations/applications/minerals/EXPO.pdf>
14. If the proposed exploration activities require any surface disturbance, then Archaeological and Plant survey reports will be requested to be submitted to the ASLD for review and approval. Two paper copies of the Archaeological survey report and one copy of the Plant survey report, as well as electronic copies of both reports (in PDF format) are required. Information concerning archaeological surveys may be viewed at:
http://www.land.state.az.us/programs/natural/cultural_res_mgt.htm
Information related to plant surveys may be viewed at:
<http://www.land.state.az.us/programs/natural/nativePlantSurveys.htm>
15. The annual minimum work expenditure requirements are:
 - **\$10.00** per acre per year for years **one** and **two**; and
 - **\$20.00** per acre per year for years **three** thru **five**.Acceptable expenditures include those resources used to determine the existence or nonexistence of a valuable mineral deposit, including but not limited to geological, geochemical, or geophysical surveys conducted by qualified experts, drilling and sampling, and excavation, together with the costs of assay and metallurgical testing of samples from the permitted land (see A.R.S. §27-252.C). Proof of work expenditures must be submitted to the ASLD Minerals Section each year in the form of invoices and/or paid receipts. If no exploration work was completed, the applicant must pay the ASLD an amount equal to the required per acre expenditure listed above for whichever year the Permit is being renewed.
16. No exploration work can proceed without the express and written approval of the Exploration Plan of Operation by the ASLD. This approval includes the clearance of required archaeological and native plant surveys by the ASLD staff. Any work conducted on the Permit without this approval will not be accepted as a qualified expenditure and will result in the cancellation of the Permit.
17. Applicants should review A.R.S. §27-318 and be aware of their responsibility and liability for any old or abandoned exploration or mine workings located on the land covered by the Exploration Permit.
18. An Exploration Permit is neither a right to mine nor does allow for the removal of any valuable minerals, except as approved by the ASLD within an Exploration Plan of Operation.
19. If discovery of a valuable mineral deposit is made, the permittee must apply for and obtain a mineral lease from the ASLD before any mining activities can begin.

ARIZONA STATE LAND DEPARTMENT ENVIRONMENTAL DISCLOSURE QUESTIONNAIRE
These two pages are part of the application - DO NOT DETACH.

The purpose of this questionnaire is to give the Department an opportunity to detect proposed land uses that may have potential environmental impacts and risks, and to consider these impacts and risks in the processing of the application.

If you have questions regarding this questionnaire, please contact the State Land Department, Environmental Section at (602) 542-2119. Other Federal, State, County and local agencies may also need to be contacted regarding environmental regulations.

PLEASE INDICATE BELOW THE TYPE(S) OF POTENTIAL ENVIRONMENTAL IMPACTS FROM YOUR CURRENT OR PROPOSED USE:

<u>YES</u>	<u>NO</u>	<u>WILL YOUR USE INVOLVE:</u>	<u>TYPE OF ENVIRONMENTAL IMPACT</u>
_____	_____	WASTE TIRES	The collection of waste tires? If yes, explain: _____
_____	_____	LEAD ACID BATTERIES	The sale and disposal of lead acid batteries? If yes, explain: _____
_____	_____	DISCHARGE IMPACTING GROUNDWATER	Generating a discharge that may potentially impact groundwater? If yes, explain: _____
_____	_____	PESTICIDES?	If yes, explain use: _____
